

My friend, Jerry Warrington, is a 25-year cancer survivor. His prolonged chemo has resulted in sight damage. As a writer, he needs his sight to continue earning a living. As an avid outdoorsman – fly fisher and hunter – he needs his sight for his psyche. He needs an eye operation.

I order to raise funds for an eye operation he is selling some items from his days afield (see attached list). It's an opportunity for you to obtain some fine books and other sporting equipment at incredible prices.

Email me with the item numbers, you're name, phone number and email address, and I'll reserve them for you. When you pay me, I'll get the items; when I receive the items, we will arrange pickup/delivery.

Time is of the essence, so this needs to be done quickly. Email me for another copy of the list, if you would be willing to share the list with others.

Order deadline is Oct 31st; payment due at time of order; delivery at the next meeting, pick up at my home, or as otherwise arranged. For any orders placed after Oct 31st, I will try to deliver before Christmas, or as soon as I can.

11. ~~*TROUT MADNESS & TROUT MAGIC*~~ by the late Robert Traver, aka his Honorable John D. Voelker. He was perhaps one of the most talented and gifted writers of the last 50 years. His observations about trout fishing and the angling life were always spot on and timelessly classic. Reading his collected works continues to be the best pre-season, in-season and post-season approaches to any trout season, especially a Michigan trout season. Both books in very good+ condition with very nice dust jackets firmly intact. ~~\$35~~ for the pair. ----- Roy Hawk -----

31. *HILL COUNTRY* BY GENE HILL. Twice signed and once inscribed by one of the finest outdoor writers in recent or past history, this limited edition of the late Gene Hill's work is a joy to read for any sportsman. Slipcased and in fine+ condition, it was produced by the national sporting fraternity some years ago, and is now becoming increasingly difficult to find in *any* condition. \$100 (includes a hand-written letter from Gene on Field & Stream stationery, and one of Gene Hill's pipes as well.)
32. *A GALLERY OF WATERFOWL AND UPLAND BIRDS* BY DAVID MAASS AND GENE HILL. Of the artists and writers who defined a generation or two of art-loving bird hunters, few did it with the ease of David Maass and Gene Hill. David Maass could paint anything that sported feathers, and Gene Hill could capture a moment and make it *every man's* in the span of a few book pages.

Both have long been acknowledged as talented to the extreme, and time has done little to change those opinions. *A GALLERY*...is a mix of the best of both worlds– the artwork of David Maass coupled with the insightful observations of the late Gene Hill. This trade edition is signed and inscribed by Gene. The dust jacket is good+ with the book rated as being in excellent condition. \$60
